Statement of Faculty Senate Action

APC Document 93:   **Delete CSCI 242, 342 and 446**

Effective Date: Fall 2013

1. **Delete:** On page 113, the entry for **CSCI 242:**

     242   Programming Visual Applications (3)
             Development of event-driven graphical applications using an integrated development
             environment. Prerequisite: CSCI 181 or 182 or permission of instructor.

     Impact: None.

     Rationale: Mobile and web interfaces are replacing windows-based personal computer interfaces.
     This course is being replaced by CSCI 344 as a requirement in the information system concentration.

2. **Delete:** On page 114, the entry for **CSCI 342:**

     342   System Analysis and Design Methods (3)
             Study of the concepts and techniques utilized in the analysis and design of an
             information system throughout the system development cycle. Prerequisites: CSCI
             242, 343. Fall

     Impact: None. This course has not been taught for several terms.

     Rationale: Design methods are now taught throughout our curriculum. We do not need a specialized
     course in this topic.

3. **Delete:** On page 115, the entry for **CSCI 446:**

     446   System Analysis and Design Project (3)
             Experience in designing, developing, documenting, testing and implementing a
             significant project in a teamwork environment. Prerequisite: CSCI 342. Fall

     Impact: None. This course has not been taught for several terms.

     Rationale: Team projects are now incorporated into many of our upper-level courses. We do not
     believe it is necessary to offer a specialized course in this area any longer.
