Impact: These changes will have little to no resource implications. For departments that have moved to a 4-hour curriculum, the 178 sections will be designed and delivered in accordance with agreed-upon curricular changes and practices.

Rationale: These changes are based on a multi-year review of UNC Asheville's general education curriculum. Members of the Curriculum Review Task Force and the Academic Policy Committee collaborated on the development of the Liberal Arts Core Implementation Proposal, [Senate Document 0713F](#) (APC 1). The changes presented above are a result of this proposal.
