Sense of the Senate Resolution

Whereas: *Free and open communication is fundamental to and a characteristic of the Liberal Arts University, and;*

Whereas: *A successful Chancellor candidate will want to know the University community and the University community will want to know its potential Chancellor, and;*

Whereas: *UNC Asheville has been very successful in attracting excellent candidates through numerous previous open searches where candidates have been presented to the University and its members,*

Be it resolved that: The Faculty Senate, this day of 20 February, 2014, strongly encourages the Chancellor Search Committee to be as open and as communicative as possible as it considers recommendations for the next Chancellor of UNC Asheville. We request the Chancellor Search Committee make the final candidates' visit to campus open to the university community.
