

THE UNIVERSITY OF NORTH CAROLINA AT ASHEVILLE
FACULTY SENATE

Senate Document Number 1314F
Date of Senate Approval 12/04/14

Statement of Faculty Senate Action:

APC Document 10 (ENGR):

Change course title for ECE 455

Effective Date: Fall 2015

1. Delete: On page 138, the title for **ECE 455:**

Introduction to Robotics Engineering (3)

Add: On page 138, in place of deleted entry:

Computer Control of Robots (3)

Impact: There will be no impact on the resources and staffing of the Engineering program due to this change. The content of the course remains unchanged, but the course title is being updated to more clearly represent the course content.

Rationale: This course is part of the Engineering curriculum at NCSU. The title change is requested to match a change being made to the NCSU catalog. Making this change to the UNC Asheville catalog will maintain consistency between the catalog listings for courses included in the JEM program.
