Date of Senate Approval 03/07/2019

FWDC 10: Adding question to the Student Feedback on Instruction form

Sense of the Senate Resolution

In Fall 2018, the newly developed Student Feedback on Instruction instrument was administered in all eligible courses taught that semester (see SSR0818S, SSR0816S). After receiving feedback from faculty and students, the Task Force on Student Feedback on Instruction would like to propose the addition of one universal question to the instrument.

Following the suggestion from the Task Force on Student Feedback and FWDC, Faculty Senate supports the addition of the following universal question to the Student Feedback on Instruction instrument:

Do you have any suggestions for improving the course or how it was taught? If so, what are they?

The question will be included in the Student Feedback on Instruction instrument beginning in Spring 2019.
