FS 1: UNC Asheville Senate Resolution on Institutional Racism

The Faculty Senate of the University of North Carolina at Asheville expresses full support for the actions of all members of UNC System community who are actively engaged in the struggle against institutional racism. Specifically, we encourage and support efforts of our own campus communities that critically examine our administrative structures, our pedagogical practices, and our biases that affect our daily interactions with faculty and staff colleagues and with our students that may hinder our System-wide goals of equity and inclusion. Moreover, we respectfully seek to collaborate with our colleagues across the UNC System – administrative, faculty, and staff – in similar efforts.
